

LIKITS & LITTLE LIKITS

To ensure a successful introduction of your horse to his/her new Likit toy, follow these **FIVE simple steps**:

STEP 1: LICKING THE LIKIT OR LITTLE LIKIT

Allow your horse to sniff and lick the Likit or Little Likit from your hand initially so they get a taste for the product

STEP 2: PLACING THE LIKIT IN THE TOY

Now place the Likit or Little Likit in the toy, as directed and hold the toy still so your horse can again lick the Likit

STEP 3: POSITIONING THE TOY

- Hang/Secure the toy as directed on the packaging
- The best position is close to the water bucket or manger, (but not obstructing) as this will encourage your horse to get used to the toy's presence much more quickly

STEP 4: THEY'LL LIKIT, LIKE IT, LOVE IT!

Once you have completed stages 1-3 your horse should now be happily playing with the toy

STEP 5: MIX IT UP!

Try using different flavour combinations, your horse will enjoy the varied taste sensations.

Salt and Sport Likits make an interesting alternative to the original varieties
